Won't Back Down

Plain Cities

And a wont back down
And I won't turn around and around
And I won't back down
Doesn't matter what comes crashing down I'm still gonna stand my solid ground
You woke the morning up runnin on the darkest night the longest fight I've seen
Here goes a chance I know cashing in on all my chips
Let all my ships come blind
And these days a little bit longer than the last
And your ways a little bit stronger than the past
And your light found my bottle in the night
And you kept my in this fight
And you have me second life
And I won't back down
And I won't turn around and around
And I won't back down
And it doesn't matter what comes crashing down
I'm still gonna stand my solid ground
You found me once and for all
Laid it down in the sinking ground
The hopeless undertow
Singing out the gentle sound
Rattling through my smoken screen and my broken dreams last night
And these days a little bit longer than the last
And your ways a little bit stronger than the past
And your light found my bottle in the night
And you kept me in this light and you have me second life
And I won't back down
And j won't turn around and around
And I won't back down
Doesn't matter what comes crashing down
Still gonna stand my solid ground
And I sing Hallelujah ripped through my veins
I heard the hammer drop
My blood in the rain
Hallelujah you came like a train
When all is lost
All is left to gain
And I won't back down
And I won't turn around and around

And I won't back down
Doesn't matter what comes crashing down
Still gonna stand my solid
And I won't back down
And I won't turn around and around
And I won't back down
Doesn't matter what comes crashing down
I'm still gonna stand my solid ground
