Song For A Dying Planet

Joe Walsh

Is anyone out there?
Does anybody listen or care anymore?
We are living on a dying planet,
We're killing everything that's alive,
And anyone who tries to deny it
Wears a tie
And gets paid to lie
So I wrote these songs for a dying planet,
I'm sorry but I'm telling the truth,
And for everybody trying to save it
These songs are for you, too.
Is anyone out there?
