

I Got The Message

ZZ Top

I'm picking up on a signal that's in the air tonight
It's sparkin' my receiver it feels like dynamite
I got the message but I wanna get it straight from you My mind is electric I'm about to blow a fuse
The cockpit is empty so shoot it down the tube
I got the message but I wanna get it straight from you I've got to make a connection I'm on needles and pins
Workin' up a printout and I'm gonna zero in
I got the message but I wanna get it straight from you
