

You Just Gotta Love Christmas

Peter Cetera

Something beautiful
Happens this time of the year
Unbelievable
Knowing that Christmas will soon be here Making an angel on new fallen snow
Take an icicle souvenir
It's so beautiful
You just gotta love Christmas Something magical
Happens this time every night
So incredible, candles and ribbons
And so many colored lights Gather the family and sit by the fire
Sing when the gang's all here
It's so magical
You just gotta love Christmas Little children find it hard to sleep at night
Waiting for old Santa and his reindeer
A time to see each other in a different light
There are so many reasons
You just gotta love Christmas Little children find it hard to sleep at night
Waiting for old Santa till the morning light
It's a time to see each other in a different way
It's a wonderful time of the year
You just gotta love Christmas Gotta love Christmas
Gotta love Christmas
Gotta love Christmas
