

Every Word (Wendel Kos Club Mix)

Ercola

I'm turning in I think its time for me to go
I'd let you in but I just wanna take it slow
Look a little closer it's not hard to know
We got something more and thats not typical
When I first saw your face I didn't look again
I didn't go there cause I just got myself up again
But you know what to say to take my breath away
And I had no idea that things would change
Chorus
Im saving up every word
Keepin' em together cause they sound so good
Im holding onto every word
Thats whats got me feeling alive yeah
Every word you say is like its from a poem
Sending me to places I have never known
Something bout our vibe is like a chemical
If we dont do this right I think it might explode
When I first saw your face
I didnt look again
I didnt go there cause I just got myself up again
But you know what to say to take my breath away
And I had no idea that things would change
Chorus
Im saving up every word
Keepin' em together cause they sound so good
Im holding onto every word
Thats whats got me feeling alive yeah
