

On Fire (feat. Maribelle)

Carmada

The hotter the flame
The colder we get
The faster we start
The slower we end
So I wait till my turn
I do soak it up
It's hard to digest
It's about two doves
And we're in the jest
Trying to get hold of the lighter

'Cause I'm feeling healthy
That's how you left me
I'm up in clouds
I don't how I had you fuck me
Ooh, you're on fire
You're bad for me
Unfortunately, you take me higher
Go!

The warmer you touch
The calmer I feel
You wear out
But I volunteer
'Cause that's all we'll be
'Cause I know too much
Getting to the crib
Adrenaline rush
Forget how I feel
But you still set me free

'Cause I'm feeling healthy
That's how you left me
I'm up in clouds
I don't how I had you fuck me
Ooh, you're on fire
You're bad for me
Unfortunately, you take me higher

Go!

'Cause I'm feeling healthy
That's how you left me
I'm up in clouds
I don't how I had you fuck me
Ooh, you're on fire
You're bad for me
Unfortunately, you take me higher
Go!
