Run Right Through

Home Town Hero

Rape my lovers shadow
Break the ones you thought you loved
And take your bloody lassoRape my home, landlord
Break the new, but kill the old
And take your bloody lassoIt's all gonna happen now
It's not gonna happen nowI thought you'd be with me
I thought it was better than something
Better than nothing, better than something, yeahRape my brother's shadow
Break the new, but kill the old
And take your bloody lassoIt's all gonna happen now
It's not gonna happen now
It's all gonna happen now
It's not gonna happen nowI thought you'd be with me
I thought it was better than something
Better than nothing, better than something, yeahWas better than something
Better than nothingI thought you'd be with me
I thought it was better than something
Better than nothing, better than something, yeah
