

# Stars Align (Andy Caldwell Mix)

## Kaskade

You know this better than I can explain  
I lived it  
Was lost and now I'm moving on  
You wake up  
Realize the dream  
I feel that our luck is now coming on See the stars align  
And you know it's all for you  
Down were you before  
Now you come alive for this  
There's calm inside the storm  
If you know just what you're trying for  
See what you could be  
And you know you shine for me  
Why not now? Remember how we saw it to be  
I still see it  
Still time enough for me  
I see it shining  
Can almost touch it  
You can taste it in the air
