

# Last Before the Storm (Remastered 2016)

## Gamma Ray

Who's controlling all the misery and pain  
When the error signs are lighted in the Masterhall  
And from the start the action is in vain  
Cause the Beast is always careful to avoid the fall  
We crawl up to the skies we'll never return again  
We're the last before the storm  
Watching the sun going down on us  
We wish we had never been born  
To be the last before the storm  
Who's ever gonna change the world  
I don't understand what we are fighting for  
The truth is sad, no lying, we are cursed  
I don't really know who ever made the Law  
We cry out for more, we wonder what's next to the world  
We settle the score, we never look back  
We're the last before the storm...  
Cry out for the people who don't know  
the world  
They don't understand what they say and they're cursed  
Lying for reasons in search for the truth  
Mephisto - we comin' down [repeat][Solo Dirk/Kai/Melody both]  
We cry out for more...  
We're the last before the storm...
