Moment Of Peace

Gregorian

Mm Mm Mm Mm Mm
Ah Ah Ah Ah AhIn moment of peaceAh Ah Ah Ah Ah
Ah Ah Ah Ah Ah(Chorus)Come now, come by our side,
Into a place where you can hide,
We are the sunshine,
Rest your Soul here,
And you'll find,
We are the energy,
We give the world to thee,
Hold up your heart now,
We will ease pain from your brow.(Sarah Brightman)
In a world without Angels,
And destruction is near,
You can come with us here.When the people are strangers,
We will rest here and be,
In a moment of peace.,In a world without Angels,
And destruction is near,
You can come with us here.When the people are strangers,
We will rest here and be,
In a moment of peace.(Chorus)Light up the dark below,
See through the stars,
Reach to the earth's flow
Drift into the joy of our hearts,
Unleash the energy,
Taste of the wine,
Drink as a Soul,
That knows now, power divine.When the world is in tatters,
And destruction is near,
You can come with us here.When the people are strangers,
We will rest here and be,
In a moment of peace.When the world is in tatters,
And destruction is near,
You can come with us here.When the people are strangers,
We will rest here and be,
In a moment of peace.In a moment of peace.
