Nothing New

Face to Face

There is nothing new
Put in front of you
Nothing you don't understand
Don't try to rationalize
No one hears your lies
Only you can comprehendYou don't want to see
You don't want to hear
You don't want to feel at all
Tell me, that you've tried
Mind is open wide
But you're not listening at allPlease don't question me, I don't have the time
If there's a problem that it's easier to set aside
If there is nothing that will make you want to change your mindYou can't take it
And you can't make it
You can't make it so why try?
You can't make it so why try?If there is nothing new put in front of you
Tell me that you've tried to
Tell me that your mind is openPlease don't question me, I don't have the time
If there's a problem then it's easier to set aside
There is nothing that will make you want to change your mindYou can't take it
You can't make it
You can't make it so why try?
You can't make it so why try?
You can't make it so why try?
You can't make it
