Someone said you was, runnin' 'round

Like you owned the world

It's no secret, you're the talk of the town

You know, the best of the girlsThat's right, and now you

Walked right out of my heart

You know it's all over town

I said you walked walked, right right, out of my heart

You know it's all over town

Now it's all overYou're so neat, you're so cute, you're so fine

You know that everybody wants some action

They see you comin' and they act like it's cool

Because they know that somethin's happenin'That's right, because you

Walked right out of my heart

And now it's all over town

I said you walked walked, right right, out of my heart

You know the word's goin' 'round

Now it's all over, now it's all overI don't care (he don't care)

I don't careI don't care care what they say about us anymore

I don't care what they wanna do

Baby all my heart is for you

No matter what happensThere's no reason why we still can't be friends

You know we all need someone we can talk to

No matter what they say, we both know I'm right

After all we've been throughAnd now you walked right out of my heart

You know it's all over town

I said you walked (walked), right (right), out of my heart

You know the word's goin' 'round

Now it's all over

I said you walked, right out of my heart

I said you walked (walked), right (right), out of my heart

You walked right out of my heart

And now it's all over town
