Secret Country

Karma County

Soft rain falls around us
And the moon says it's gettin' late
On and on, our steps in time
We come to the edge of the lake
And we forget where we are
And you're so loud
And the water around our feet
Can't find no way out
So take me back to this world
And take me to the line
Take me out of this world
Drown with me tonight
And there's water on the concrete
Rivulets on your face
Then you release me from your kiss
And do a dance for me in the rain
We're fallin' down and splashin' up
I'm tappin' for a second cut
Your rain-soaked pirouette
It spins me around again
Take me back to this world
And take me to the line
Take me out of this world

Drown with me tonight
We forget where we are
We forget
We forget where we are
Now I'm readin' into your intention
And I've fallen through your depth
You pull me to the water's edge
And vanish in the black
And you're on my mind
Swim through my tide
As I float out to you
I dream of your caress
Take me out of this world
Take me to the line
Take me out of this world

Drown with me tonight
We forget where we are
We forget
We forget where we are
We forget
We forget where we are
