Doppleganger

Penumbra

The sweat runs on your face
As the nightmares take place
Always the same vision
Family slaughter comes on
This hell inside your head
Shows you people dead
You can think you' re insane
Cause you can' t stop this pain[CHORUS]Just a dream or sad reality
Doppleganger control all you see
Devil is the master of your mind
God can't help you, you just have to die
The blood smell wakes up you
The nightmare continue
Put your hands on your face
Be the slave of madness
Who is the assassin
You can recognize him
Mirror in the kitchen
Shows you his reflection.[CHORUS]
