

# Run Over By A Truck

Weezer

I used to sing songs at the break of the day  
Zippa dee doo da, zippa dee yay  
Working myself into a frenzy  
But I don't do that no more, no way I used to like-a learn how to speak in Chinese  
O kudasai means baby, would you please?  
Conjugating verbs with the greatest of ease  
But I fell down hard on my bended knees I feel like I've been run over by a truck  
I don't care much about anything  
I'm happy to sing  
I'm lacking the passion to do anything I feel like I've been run over by a truck  
I don't care much about anything  
So give me a ring  
And tell me to wake up and do anything I used to play b-ball down at the park  
Running up the sideline until it got dark  
Outside step, over with my right foot  
Push off with the outside of my left foot I used to chat up the girls out in the club  
Looking for one to give me some love  
The show wasn't over till the dough boy come home  
Young, fat, low, high, I love everyone I feel like I've been run over by a truck  
I don't care much about anything  
I'm happy to sing  
I'm lacking the passion to do anything I feel like I've been run over by a truck  
I don't care much about anything  
So give me a ring  
And tell me to wake up and do anything Grandma never was a pushover  
Ain't nobody try to step to her  
She could teach a gunning hustler to dance in France Till the plane came a-crashing down  
On the way to see the Cleveland Browns  
She was scrambling on fourth down  
How I wish that I had been around  
How I wish that I had been around I feel like I've been run over by a truck  
I don't care much about anything  
I'm happy to sing  
I'm lacking the passion to do anything I feel like I've been run over by a truck  
I don't care much about anything  
So give me a ring  
And tell me to wake up and do anything  
I feel like I've been run over by a truck
