My World

Emigrate

Now you get along with me
I'm gonna make you mine and make you free
In the new world
Crap goes in, crap goes out
And it makes me scream, it makes me shout
In the new worldRip it up and make it start
Carry it up and take my heart
In the new world
I'm lost in you, I'm lost in crowds
I fight for you, I'll say out loud
It's a new worldThis is my world (burning, burning)
This is my world (burning, burning)
Ripped up life and ripped up pain
I'll take my time and make you sane
In the new worldThis is my world (burning, burning)
This is my world (burning, burning)
I'll hope that system starts to change
We're born with love and born with rage
I'll hope that system starts to change
We're born with love and born with rage
Now you get along with me
I'm gonna make you mine and make you free
In the new world
Now you get along with me
I'm gonna make you mine and make you free
In the new worldThis is my world (burning, burning)
This is my world (burning, burning)
This is my world (burning, burning)
This (burning, burning)
Is (burning, burning)
My world
