

# Everything

## Young Jeezy

Sup? you got a man  
What the fuck is that?  
You don't know who I am?  
Oh yeah, well, he ain't got shit on me  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
I'm going out the same way I came in, hard than a motherfucker  
Real street nigga, I ain't nothing like these other suckers  
How much the club cost? I might buy this motherfucker  
Have the feds park right outside this motherfucker  
You know the name, bitch, hotter than fish grease  
Got a hundred, moved a hundred that was this week  
She want me to get the room man, this bitch cheap  
But she roll the weed good and she a big freak  
We on 75 her hands down my 87's  
Dolce Gabbana belt, you know the Mack-11  
First name Gots, last name Ends  
Fix your mouth, fix your face, you might get a Benz  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Put that on momma, my daddy and everything I love  
For everything I rap, my gangstas in the trap  
You can't see me with a magnifying glass  
200 on the dash, try some games, I'll bust ya ass  
Nigga whole click, iPhones, nigga, get your shine on  
Used to whip it up and zip it up, now it's the microphone  
No man alive to stop my shine, I'm a hustla mayne

I want it bad 'cause Bad Azz came from nothing man  
Shining on 'em, grinding on 'em 'bout what I'm talking 'bout  
If I show your bitch my house, she gon' take my dick and floss  
Show after show I'm getting dough, 100 G's at a time  
I'm MJ round my way and Louisiana is mine, nigga  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Ya nigga ain't seeing me, I put that on everything  
Put that on everything, put that on everything  
Told you before, I'm a man 'bout his business  
Draw the line, right where the family is  
Never cross it, be the boss of it  
Love ya down, until I've exhausted it  
Other dudes, they pursue but they're clowns to you  
I kneel down on the real and I pray with you  
And never want too much, I make due for us  
Believe me, I stand on my word  
I put that on everything, believe me when I say  
Put that on everything, everything  
Put that on everything, everything  
Put that on everything, everything  
Put that on everything, everything  
Put that on  
Put it all on the line for your baby  
Put it all on the line for your [Incomprehensible]  
Put it all on the line for your baby  
Put it all on the line for your [Incomprehensible]  
Put it all on the line for your baby  
Put it all on the line for your [Incomprehensible]  
Put it all on the line, put it all on the line  
Put it all on the line  
Put that on everything, everything  
Put that on
