Poison

Sick Puppies

Here I sleep
With one eye opened
While you're dreaming
Next to me
Will at least
I give up hoping
Some kind of miracle
would set me free
Starting over
God only knows where we've been
Starting over
is not an optionYou're like poison under my tongue
so bittersweet
but I like it
I love it
Poison under my tongue
And it keeps killing me
But I like it
I love itoooh.. oooh.. ooh..Here's a pill
why don't we take it
'Cause I heard it makes it all okay
I don't care
Wait until
We both are naked
Save the bullshit
For another day
Starting over
God only knows where we've been
Starting over
Is not an optionYou're like poison under my tongue
So bittersweet
But I like it
I love it
Poison under my tongue
And it keeps killing me
But I like it
I love itYou make me wanna jump off the ledge
.... come back from the dead
And do it again, do it again, do it again

Poison
And it keeps killing me
But I like it
I love it
On my tongue
She's like poison on my tongue
She's like poison
She's like poison
Poison
Poison
Poison
She's like poison on my tongue
So bittersweet
But I like it
I love it
Poison on my tongue
And it keeps killing me
But I like it
I love it[whispering] poison, poison, poison, poison, poison, poison
