## Something With Numbers

I'm giving up my position in this private practice  
Due to one condition  
Affection and care you lack this  
A steam train is coming along and I'm tied to the tracks  
I'm better off without youIt's over now  
It's over nowSay It's over nowIf you took the time to listen  
If only you had that patience  
There would be no suspicion  
No questions or accusations  
A steam train is coming along and I'm tied to the tracks  
You'll see I'm better off without youSay It's over now....
