Somebody Like You

Frank McComb

Theres no room for doubt in my mind
Girl I'm sure you are the one
Nothing in this world could compare
To all the simple things you've done
God has sent you to me
From heaven above
I don't need to think twice
Girl I know I'm in love

Happiness flows through my heart
Just from knowing you're around
And can't nobody take from me
What good thing that I've found
You're the reason for
My happiness
Since the first day we met
Girl I knew I was blessed

[Chorus]
Its so easy to love somebody like you - yeah
And every word I sing
I mean because it's true ? yes I do
We will always be
The best of friends
Its a you and me thing
No one else could stand in

You're never going overboard
Or get too extreme with situations
Knowing how to handle yourself
In the ugliest complications
Every woman should
Take up a course of you ? oh yeah
So when they're tryin to getta man
They'll know just what to do

[Chorus]

Love at first sight is a thing in which men never believe
Till it finally happened to me

My life's complete having you and only you
To love, to love

[Chorus x 2 to fade]
