

Iron Savior (2017 Version)

Iron Savior

Out of the cold you've been given birth
made out of steel to protect and serve
build for eternity you're indestructable
free of emotions a robot miracle
Now you're up there above the clouds
reading your sensores trace
programmed to correct the errors
of the human raceIron Iron Savior - Godness in the sky
we can't hide from your cold, staring eye
Iron Iron Savior - Godness in the sky
deadly and dangerous you'll never dieYou gave us hope the Savior machine
you were supposed to be a millions dream
Circuts, chips and bits and bytes
detecting the failure
result of analyses
the human behavior
(I must get control)Iron Iron Savior - Godness in the sky
we can't hide from your cold, staring eye
Iron Iron Savior - Godness in the sky
deadly and dangerous you'll never dieSolo KaiThe Savior knows what's wrong or right
he made up his artificial mind
Now mankind's fate is in his hand
will he ever understandIron Iron Savior - Godness in the sky
we can't hide from your cold, staring eye
Iron Iron Savior - Godness in the sky
deadly and dangerous you'll never die
Iron Iron Savior - look what you have done
cant you see your assesement might be wrong
Iron Iron Savior - robot of the law
end this illfated devistating war
