

# Give It Up

## Home Grown

You're fadin' now like a stereo  
Your signal's weak and you're feelin' low  
Don't try to think you know what I'm thinkin'  
So give it up now, just give it up now Give it up, whoa oh oh whoa  
Give it up 'cuz I can see through you  
Give it up, whoa oh oh whoa  
You know that I'd do anythin' for you It's obvious that you're feelin' down  
And you don't want anyone around  
But you know that's exactly what you need  
So give it up now, just give it up now Take your chance on stupidity  
And have a seat come ride with me  
We'll set a course for anywhere but here  
So give it up now, just give it up now Give it up, whoa oh oh whoa  
Give it up 'cuz I can see through you  
Give it up, whoa oh oh whoa  
You know that I'd do anything for you  
Give it up, whoa oh oh whoa Don't be afraid to make a mistake Don't be afraid to make this mistake, no I'll turn  
you on like a stereo  
So take your chance or you'll never know  
The water's deep but boredom can kill you  
So give it up now, just give it up now Give it up, whoa oh oh whoa  
Give it up 'cuz I can see through you  
Give it up, whoa oh oh whoa  
You know that I'd do anything for you  
Give it up, whoa oh oh whoa  
Give it up 'cuz I can see through you  
Give it up, whoa oh oh whoa
