Consider Me

Chicago Farmer

[Chorus]
Would you ever consider someone like me
To take a part in the heart of your company?
Would you give me an inch of responsibility?
Would you let me lock up at night?
Would you give me the key?

Would you ever let me use your phone
If I wrecked my car and I wound up at your home
Would you share some care for all my broken bones
Would you make it your business and tell me to mind my own

Would you ever let me date your kin
Of your family circle would you ever let me in
Of your family tree would you let me be a limb
Yeah what would you do if we ran off on a whim

And would you let me sing songs to your kids
Would you let me tell 'em what I think life really is
Would you blame for every single damn thing they did
Yeah would they jump too if I jumped off a bridge

[Chorus]
