Come Follow Me

Duane Carter

Heads high
Ready to rock
Do you want
What we got
Tag along
Crank it up
Sing the song you know it don't stop
Yo my man get behind the wheel it's time to cruise
You snooze you lose let me introduce you
To my friends in the other car right behind us
And my other friends in the car right behind them
Start a caravan
Crank it up and let it pump
Bring out the beat and make it criss cross yo
Yes were drivin it
And when its time to hit the road
Let the heat, crash, ready to explode
And when the beat rocks
Hands high like so
Repeat after me didio didio
And when the show starts
Hands high like so
Repeat after me sing it loud
Every body go
Didio didio didio(every body like this y'all)
Didio didio didia (every body like that y'all)
Didio didio didio
Every body come and follow me
Didio didio didio (every body like this y'all)
Didio didio didia (every body like that y'all)
Didio didio didio
Every body come and follow me
The caravan rolls out to the movies
We need at least ten rows
Yeah we're row d
Then its time go to the Back street Boys show
Or the Britney Spears show
Co-starin me yo
Well be in the crowed hypin up the party

I want best reception for each and everybody
So when I hit the stage show me love don't be rude
And afterwards hear my brother burn rubber dude
And when the beat rocks
Hands high like so
Repeat after me didio didio
And when the show starts
Hands high like so

Repeat after me sing it loud
Every body go
Didio didio didio (Everybody like this yall)
Didio didio didia (Everybody like that yall)
Didio didio didio
Everyone come and follow me
