

# Forces (feat. Airling)

## Japanese Wallpaper

I've been thinking bout it on my own  
And don't know any  
Heavy on your shoulders, often, often  
That settle for these forces  
You're feeling in your bones  
But you don't act on it  
There's something in your heart  
But you won't talk, talk, talk about it  
The sensor in is my mind, is to give me up

'Cause I've been thinking bout it  
And I've been dreaming bout you  
Won't do a thing about this  
'Cause I don't wanna ruin you  
I've been tripping on you  
Have anything what I do  
Won't do a thing about this  
'Cause I don't wanna ruin you  
I've been tripping on you  
See nothing  
And I've lost it  
And what you've got is magic, oh  
Through in all  
Close your eyes and let it follow you

You feel in your bones  
But you don't act on it  
There's something in your heart  
But you won't talk, talk, talk about it  
The sensor in is my mind, is to give me up

'Cause I've been thinking bout it  
And I've been dreaming bout you  
Won't do a thing about this  
'Cause I don't wanna ruin you  
I've been tripping on you  
Have anything what I do  
Won't do a thing about this  
'Cause I don't wanna ruin you

I've been tripping on you  
See nothing  
And I've lost it  
And what you've got is magic, oh  
Through in all  
Close your eyes and let it follow you
