

Goodbye

Blacklite District

You can say hello to the vimino soul you can right by & I'll take you home down the same road that you always roam to the same old places that you always go. See the same old places you already know & the same bad places that you always know. Send the same old message that you said be stone but that don't mean nothin' when you're on your own

Advise to see the what I believe. But all this stout is killing me. So this is it, I never quit, the fear overcoming. Goodbye. Say goodbye to the naft that you travel with your life. Say goodbye to the dark side. Goodbye. Say goodbye to the lives & the pain you hold inside. Say goodbye to that old life. Goodbye.

Time to step it up. It's time to shine. I can feel it creeping up my spine. Time to set it straight so here's your sign. I'm gonna take it all 'cause you know it's mine. I'm gonna spend it all & it's time you dime. I'm gonna break you all 'cause your fear is fine. I'm gonna take the fall if I bit the crime, & yeah, I bit the crime.

Advise to see the what I believe. But all this stout is killing me. So this is it, I never quit, the fear overcoming. Goodbye. Say goodbye to the naft that you travel with your life. Say goodbye to the dark side. Goodbye. Say goodbye to the lives & the pain you hold inside. Say goodbye to that old life. Goodbye.

Now the days of all last of of the lies we told. Now I can realise, I'm glad to say goodbye. Loud to the dabs at hand breath like it's your dyin' breath. Feel like you you never feel. Be glad to say goodbye.

Goodbye. Say goodbye to the naft that you travel with your life. Say goodbye to the dark side. Goodbye. Say goodbye to the lives & the pain you hold inside. Say goodbye to that old life. Goodbye. Goodbye. Goodbye. Goodbye.

Goodbye. Now you know that this is goodbye.

Goodbye. Now you know that this is goodbye. Goodbye.
