

# Dog Star

## Klaatu

It doesn't really matter where you are  
You could be living on a distant star  
Just as long as you're feeling right  
You could be happy on this fine night  
If you just use a little imagination  
And put your mind in a new situation  
You could be tripping through the galaxy  
Lost in a dream just you and me(chorus)  
You reach your arms up to the sky  
And cast your love across the universe  
You're feeling happy but you don't know why  
And we'll go dancing on the distant dog star with youAs we go traveling through time and space  
And leave the earth to the human race  
On our approach to the dog star  
We can see the Milky War bar  
On a planet in a new constellation  
We begin a great celebration  
We will sing and dance until the day  
For tomorrow is a week away(chorus)Step out on the floor feel light on your feet  
Anti-gravity's on can't sit in your seat  
You're so far from home and all at once you know  
That you're not ready to go you want to stay here for the rest of your lifeJust as long as you're feeling right  
You could be happy on this fine night  
You could be tripping through the galaxy  
Lost in a dream just you and me(chorus)
