In Our Minds

Yann Tiersen

In our minds, there is a town in our minds
A town we go to sometimes
A town we know just in our minds
With different people, Living different lives
In different streets, Under a different skyHow can we know, How far we go
How can we know, How far we goIn our minds, there is a town in our minds
A town we go to sometimes
A town we know just in our minds
With different people, Living different lives
In different streets, Under a different sky
