

# In Our Minds

[Yann Tiersen](#)

In our minds, there is a town in our minds  
A town we go to sometimes  
A town we know just in our minds  
With different people, Living different lives  
In different streets, Under a different sky  
How can we know, How far we go  
How can we know, How far we go  
In our minds, there is a town in our minds  
A town we go to sometimes  
A town we know just in our minds  
With different people, Living different lives  
In different streets, Under a different sky
