

Freak Flag

Southern Culture On the Skids

C'mon and raise your freak flag high
C'mon and raise your freak flag high Give 'em something different, give 'em something new
Give 'em something so that they remember you C'mon and raise your freak flag high
C'mon and raise your freak flag high Be true to what you feel inside
Don't let somebody else decide how to live your life
'Cause everybody's different, and everyone's the same
Be proud of who you are and how you play the game
C'mon and raise your freak flag high
C'mon and raise your freak flag high
C'mon and raise...your freak flag high Be curious, be kind and keep an open mind
And always respect yourself
The truth will always rise and that's the greatest prize
That you can ever give yourself Give 'em something different, give 'em something new
Give 'em something so that they remember you
'Cause everybody's different, and everyone's the same
Be proud of who you are and how you play the game
C'mon and raise your freak flag high
C'mon and raise your freak flag high
C'mon and raise...your freak flag high C'mon and raise...
C'mon and raise...

C'mon and raise...your freak flag high
