You don't want me
You don't need me
I ain't hangin' around
High Fallutin'
And now you're talkin'
Why'd you drag me down?

Chorus:
It's Cold Outside
As cold as your cold cold heart
Why did you leave here?
Why did you go so far?
It's all your fault now
So I sit here, and I drink here

I shake it, and I make it
I got to find me a car
Out on the highway, I'll do it my way
Why'd you shoot me down?

Chorus

Hey! Hey! Hey!

It's cold outside
As cold as your cold cold heart
It's cold inside
It's cold 'cause I'm torn apart
Why did you leave here?
Why did you go so far?
It's all your fault now
So I sit here, and I drink here

And why did you leave here?
Why did ou go so far?
It's all your fault now
So I sit here and I drink here
