

Great Jones Street

Luna

Up on the roof, it's almost dawn
See the water towers, look so forlorn
They've got no reason to feel that way
Night turn to day
Let's get away
It's another day
Let's get away
It's another day
We'll go somewhere we've never been
Time's runnin' out, we'll start again
What's round the bend I just can't say
Night turn to day
Let's get away
It's another day
Let's get away
It's another day
