Real Love

Belle Perez

Be my boy of golden sunlight
In the morning when
I wake up with you
Be my boy so bad tonight
This is a warning be my boy
We can make a symphony
Out of a sound bite
Just watch me, baby
Feel my body while we're dancin'
Come on honey
That's what I likeAll I want to do I want to do, baby
All I want to do is get
The most out of our precious time
I'll give you real love
So hot you know it's cool, baby
I'll give you real love
I'll get you in the mood ooh yeahBe my boy just let's get down
And make some real love
I can take it, baby
Be my boy I want you now
Give me a good time
That's what I like
