

La Raza Del Sol (Alternate Version)

Journey

Born on the east side in the barrio badlands
Juan cortez walks the streets, he's a proud man
He loves a girl with eyes that sparkle like diamonds
Troubled world makes him fight for his woman
La raza From the south blows the wind of la raza
The legends all told
Follow the sun to the great river valley
La raza del sol Bold an' strong, find a life 'cross the border
It ain't easy hassling with law and order
In the soul stands the strength of the family
Holding on with the spirit and glory
La raza From the south blows the wind of la raza
The legends all told
Follow the sun to the great river valley
La raza del sol
