Mellow Madness

Paris

As I flow into the rhyme much smoother

I keep the pace and add bass for you to

Be able to experience the strength of God

On your tape with a break that I make to partThe weak-kneed hippie MC's and wannabes

From the Dog, so they can't see me

I'm movin' swifter with the gift to lift ya

I don't step light, I don't talk shitYou suckers are all in, to try is suicide

I roll with the flow 'cause I'm qualified

To keep the peace and teach y'all to get along

Build my rep and step to the songFrom jazz to hip-hop the dog'll never stop

Get busy to the melodies that I concoct

When the raps are spit the grits stack like bricks

And you're please to receive P's hip-hop fixOn the jazz tip

Smoother and smoother

And you don't stopIt's a mellow madness in the summer time

Females outside, enjoyin' the sunshine

Kickin' it live with the knob on ten

Good food and the mood is the peace my friendMuch brotherhood because it's understood

That everyone in the sun is about the good

Lifestyle and while some came to shine

Don't matter 'cause the other brothers know the timeI'm the P, D O G and I'm swift

Son of Shabazz, shooter of the gift

To keep y'all steppin' to the beat in real time

Mad on the mix complimentin' the rhymeWith oh so smooth cuts flowin' like mercury

Keeps you suckers knowin' that you'll never be servin' me

I don't sleep and I do not sing

I drop math in your path 'cause I have to bring You on a jazz tip, yeah

So smooth in the summer time

DJ Mad Mike y'all

SmoothBirth is given to the knowledge when I recite

Smooth words that keep y'all hype

Not down with the meaningless babble that some spit

I'm paid to degrade that ignorant shitWith the so proud, so strong message of the [Incomprehensible]

Can't be dropped or stopped so don't come

With the intent to present an argument

I don't tolerate it, so don't act dumbI'ma roll, over those who oppose

The speech when I teach y'all to reach your goal

Be strong and carry on and play the song

And listen to the lyrics and you'll never go wrong A salaam alaikum, brothers I'ma take 'em

Straight through the path that I'm makin'
And co-exist in bliss peace and righteousness
So smooth on a jazzy tip like this Yeah
And you don't stop
Peace
