

# Party Crasher

## Method Man

Aww shit, not these niggaz again  
Aiyyo listen  
I'm only lettin' five of you motherfuckers in here tonight  
If your man ain't on the guest list  
He get to the back of the fuckin' line  
And you know another motherfuckin' thing?  
I don't give a fuck if a bitch spill a drink  
In this motherfucker tonight  
I'm kickin' all y'all the fuck outta hereUhh  
Muh'fuckers be up in the club scared to fuckin' death  
Nigga if you scared why don't yo' ass just stay the fuck home  
Check it out, uhhMe and mines at the door, ain't tryin' to pay your fees  
Stop playin', you fuckin' with me, I push my way in  
Bum rush there's plenty of us to tear the club up  
Guzzlin' Bacardi and such, I split a Dutch  
Bouncin' nigga lookin' like he want war  
Now I ain't the one you got to front Pah pattin' me down like the law  
As I stumble in the party  
Topsey off the Limon Bacardi for sureLoungin' near the bar section, rolled the L  
And kept steppin', concealed weapon, razor sharp  
Blue star hatchet, in the sleeve of my jacket  
Who that kid, on the dance floor lookin' for matches?  
Burn somethin', one tokes got me blasted  
Took another tokes then I passed it, choke  
Fantastic, herb ain't no joke  
Especially that indo smoke mixed with hashishLadies on the dance floor, shakin' they asses  
That million dollar broke niggaz, that makin' passes  
Honey with the eye glasses, body work is Boombastic  
Skin like blackberry molasses, mmm  
At last it's, time to step and make her mine  
Niggas headin' toward the bathroom tuckin' they shines  
Brothers got to keep it movin', playin' with kids  
That won't hesitate to snatch a Cuban, you know what this isYo Duke that's your diamonds right there, God?  
Yo that shit'll go right where my people ain't right now  
Yo don't touch my shitNow it's on in the lavatory, I heard a scream  
End of story couldn't find shorty, party scene's  
Now a fucked up chaotic thing, won't be long  
Before the sirens intervene, the territory  
Can't we all get along, without the ruckus

Got big bouncin' muh'fuckers, tryin' to rush us  
I can take a hint, what? Can smell the stench  
Of a hell bent environment, the odds against us  
Back to the wall y'all, refuse to fall  
All hands on deck yes, prepare to brawl  
Uhh, every time I try to have a good time why?  
Somebody always fuckin' it up, killin' my high, damn  
Monkey wrench they whole program, party over  
By that time I'm dead sober  
In the midst of this whole shit fo' soldiers, dead gone  
You can tell that they was heat holders  
Everybody hit the deck when they expose tech, I fled the set  
Bitch slipped and caught a broke neck, some Brooklyn kids  
Rushed the coat check, they whole set, stompin' Duke  
Half to death and took his Rolex, it's horrible  
Like a front page article, Mister Pitiful  
About a step away now we critical, uhh  
As I boned out I heard the people shout  
Niggaz, yea cold turn the party out  
Uh uh uh uh uh uh uh
