

# Sunny Day

## Gwendolyn And The Good Time Gang (Children's)

Hiding inside a crowd  
My head is inside a cloud  
Go where the music's loud  
And all these talking heads are  
Blurred in violet hues  
Another Sunny Day  
She doesn't know wrong from right  
She doesn't know when to fight  
She only knows that tonight there's always someone out there  
She'll never be alone

Another Sunny Day  
C'mon get out  
Get off the bathroom floor  
Daddy's not here no more  
I'm showing you to the door  
Enough of always numb and always insecure  
Hiding inside a cloud  
Go where the music's loud  
My head is inside a crowd  
And all this talk of rock-stars really makes me sick
