Radiation Suit

Hot Rod Circuit

Wish i could save you from yourself
Maybe this time
Repaired the fracture didn't heal so well
But its alright, and i know you've got the scars to prove
But what should i do? Avoid a radiation spill
Put your suit onNever expect the fall down, to break through
It's often regret, the absence to catch youWish I could save me from myself
Maybe this time
And I've got the cuts didn't heal so well
But they're alright
And I know you've got the scars to prove
But what should i do? Avoid a radiation spill
Got my suit onNever expect the fall down to break through
It's often only regret, the absence to catch you
(2x)And I know you've got the scars to prove
But What should i do?
And I hope somehow I can give you everythingJust don't ever expect the fall down, to break through
It's often regret, the absence to catch you
And never expect the fall down, to break through
It's often regret, the absence to catch you
