Nobody Says I Love You Anymore

Rhett Miller

Keyboards and keystrokes and keystones and keys
Write it all down and then move over please
Hollow your heart out, hold out your hope
God give me strength and a good length of ropeNobody says I love you anymoreHalftime and half lives and breaking in half
I'll take a beating and you'll take a bath
Same time tomorrow I'll know where you'll be
Same place as always right here beside meNobody says I love you anymore
Nobody says I love you
Haven't you heard? Nobody, nobody, noWatchbands and watch hands and watching your watch
Time waits for no man, for woman it stops
I don't need heaven 'cause heaven's right here
Whispering goodbye, goodbye in my earNobody says I love you anymore
Nobody says I love you
Haven't you heard? Nobody, nobody, noCelebrate love when it's over, celebrate life when it's gone
When nobody knows you are wrong
Celebrate life when it's over, celebrate love when it's gone
When nobody knows you are wrongNobody says I love you anymore
