## Disharmonic Orchestra

I am falling from the top  
I am drinking from a cup  
I came in search of paradise  
With nothing much in my mind  
A thousand eyeballs shake me down  
The up and downs of time's to come  
Satisfaction comes and goes  
Biological action and it force  
A problem of leisure measured in terms  
Of pain plus pleasure plus poison sperm  
I wear the look of false alarm  
Some ought to twist my arm
