

Glad I Waited Just for You

Reba McEntire

Use to be (Use to be)
Love was mean to me
Every love I tried my heart cried that won't do
Now you see (Now you see)
Love's been good to me I guess my love was waiting just for you
You and me (You and me) (You and me)
Go so well as we
Fit right to a T
Can't you see we do[Repeat: x4]
Gotta say (Gotta say) (Gotta say)
Your love's got a way
Of making me glad
I waited just for you
I should have known
That my heart could not be wrong
