

# How Long

## Wet Wet Wet

Hey there, Mr. Taxi Driver  
Won't you take me to the station  
Because I've been around for too long  
You said I lack understanding  
That I don't know right from wrong  
But, oh, no There's a road that a man has to take  
There's a road and it's filled with my mistakes  
Ooh, baby, don't you misunderstand me How long will it take?  
How long can you wait?  
Just tell me how long  
Just tell me how long How long will it take?  
How long can you wait?  
When we are living in a world  
Of love's imagination Senorita plays for the people who bother  
Outside those old department stores  
She's singing out loud for no reason  
About a traveling man she's been hanging around  
But, oh, no There's a road that a man has to take  
There's a road and it's filled with my mistakes  
Ooh, baby, don't you misunderstand me How long will it take?  
How long can you wait?  
Just tell me how long  
Just tell me how long How long will it take?  
How long can we wait?  
When we are living in a world of love How long will it take?  
How long can you wait?  
Just tell me how long So I should beg for some forgiveness  
Borrowed time, 'cause someone else  
Can wait that long again  
If only you'll be leavin', tell me just how long How long will it take?  
How long can we wait?  
Just tell me how long  
Just tell me how long How long will it take?  
How long can we wait?  
Just tell me how long  
Just tell me how long How long will it take?  
How long can you wait?  
How long will it take?  
How long can you wait?
