

# Freedom

## Erasure

Freedom will come  
To real love  
Heaven will come  
For real loveDo-wah, do-wah, do-wah  
Run away when it hurts from the things that we do  
Do-wah, do-wah, do-wah  
Don't know why we cry, run away from the truthChildren of new men  
Colors of human kind in shadow  
Good is your loving  
Growing and sharing stormsBelieve  
You've got to believeCalling the day freedom will come  
And we will arise to real love  
Day by day, heaven will come  
And we'll survive for real loveCherish the union  
The light in a stranger's eyes  
Your guardian angel will make  
All the wrong things rightBelieve  
You've got to believeDo-wah, do-wah, do-wah  
Do-wah, do-wah, do-wah  
Do-wah, do-wah, do-wah  
Do-wah, do-wah, do-wahCalling the day freedom will come  
And we will arise to real love  
Day by day, heaven will come  
And we'll survive for real loveCalling the day freedom will come  
And touch the sky in heaven above  
Day by day, heaven will come  
And we'll survive for real loveCalling the day freedom will come  
And touch the sky in heaven above  
Day by day, heaven will come  
And we'll survive for real loveCalling the day freedom will come  
And touch the sky in heaven above  
Day by day, heaven will come  
And we'll survive for real love
