# Fallen Angels

## Ra

My eyes don't see the obvious
It's way too far to go
Forget about the rest of me
There's nothing left to knowI see fallen angels
When I try to go to sleep
And they're always watchingI see fallen angels
As I'm walking in the streets
Silently preparing
For what they'll do to meYou see, I'm kinda paranoid
My luck, it seems to have run out
So I will point the finger now
Beyond the shadow of the doubtI see fallen angels
When I try to go to sleep
And they're always watchingI see fallen angels
As I'm walking in the streets
Silently preparing
For what they'll do to meI see fallen angels
When I try to go to sleep
And they're always watchingI see fallen angels
As I'm walking in the streets
Silently preparingI see fallen angels
I see fallen angels
When I try to go to sleepI see fallen angels
As I'm walking in the streets
Silently preparing
For what they'll do to me
