

If You Belong To Me

Toto

I left you crying on that angry morning you know I lied
I'll always run from anything that loves me to my safe side
My world circles 'round a different sun that's all burned away
I know that you're the only one
Now I'm walking down some distant street
And I know your touch is out of reach 'cause Girl you belong to me I know
And it was wrong for me to ever let you go
Girl you belong to me I know Everybody has a lonely moment they can't explain
And everybody wants to feed their hunger without the pain
There's no shadows in my hiding place I'm so locked away
Now I wish that I could see your face
I know I hurt you when you say we're through, oh no
I never really will get over you 'cause Girl you belong to me I know
And it was wrong for me to ever let you go
Girl you belong to me I know Girl you belong to me I know
And it was wrong for me to ever let you go
Girl you belong to me I know
And it was wrong for me to ever let you go Girl you belong to me I know
And it was wrong for me to ever let you go
Girl you belong to me I know
And it was wrong for me to ever let you go
