In Ur Eyes

Benny S

(Spoken)Ya know... I never felt like this before... This has never happened to me... cause... I'm a faithful guy and then came you... and you justshowed me everything I've been missing... you filled that space... that void I've been missing and didn't know how to find... I'm so torn... Could you be the one?

Never in my life, Ever felt this way.
Only you could fill me in cause girl I can't explain.
Now that I've met you, my life's been turned around..
I can't explain the whys, the whens or hows.

Chorus
In your eyes, I see the sunshine on a cloudy day,
In your eyes I see the rainbow after fresh morning rain.
In your eyes, I see the piece that's been missing in my life,
I can't remember last I felt those butterflies inside
All it took was one look... In your eyes.

She took me by surprise... I've never seen..
Natural beauty.. Brought me to me knees..
Made me forget all the drama in my life
Keeps me coming back for more...
Girl it's you that I adore.

Chorus
In your eyes, I see the sunshine on a cloudy day,
In your eyes I see the rainbow after fresh morning rain.
In your eyes, I see the piece that's been missing in my life,
I can't remember last I felt those butterflies inside
All it took was one look... In your eyes.
