

## Control

## The Vincent Black Shadow

this time the glove is latex  
this time the suit is white  
new life has found a place  
it's laid eggs in someone's eyes  
Hook: times 2

i want control  
even when you don't  
would i still want control  
even when you don't  
would i still want control  
even when you don't  
would i still want control  
when you don't  
your skin's a lot like plastic  
some kind of bad disguise  
transfusing blood for paper  
o sweet, you're drawing flies  
Hook: times 2
