## The Good Husbands

Man I'm in trouble  
Man I drank so much!  
Who is this fat girl?  
She's stealing my fur cuffs  
She's hogging the bed and I don't want no trouble but fuck man, I'm freezin!  
This Dick's wrap was all over her face and I can't remember my evening, no  
I think I'm a be sick  
I'm about to dry heavin'  
I'm pukin, there's nothin that's comin  
I'm pukin, I just can't believe this!  
Where did I go wrong?  
Oh just where did I go?  
I remember the Uber, the drink on the hill, then it all kkkkinda just goes  
I'm feelin like shit now. I'm feelin like shi-it.  
I'm late for my shift now. By like 40 miiiinutes  
Later  
Just hit a tornada  
How can I fake this?  
My empty kaho  
Just take me away  
Take me away  
Take me away  
Take me away  
Take me away  
Take me away  
Take me away  
Take me away  
Okay I'm callin in. I ain't making excuses, no I admit.  
Guess I'll call it my holiday andele anele  
Lets do it all again  
Let's do it all again  
How many times 'til I'm high enough?  
How many blenders 'til I am one  
I've been tryign to find a love deep but I am childish  
Why all that need to sleep  
I feel it pile up  
Oh  
Lady lets go.  
I need you now.  
I need you forming at dawn in the mornin and I'll give you a ride home

You got that soul. I've been so empty from this alcohol  
You got that something that make me feel full  
Momma and papa be proud of my pull  
Momma and papa be proud of my pull  
Momma and papa be proud of my pull  
This is my this is my skeleton  
My head is as big as an elephant's oh  
I was the one who just paddled in  
I was the one who just paddled in slow  
So happy but you can go half on me  
Half of me wanna say heaven soup for breakfast  
Because I can't trust that battery pack up  
That's the controlla control everything everything in my soul  
She must be missin me. Ow Spinnin then kissin me now  
Ow text me the lumini  
Speakin of lickin love  
Roll it out  
Hop in the show  
Kinda loud  
Kissin me kissin me now.
