

I Love You

Under the Influence of Giants

It's a shame that you're gone
Losing sleep when I keep rollin' to your song
Wonder how I appear in your head?
When I keep rollin', rollin' on I wanted to say that I love you
I wanted to say that I do, yeah
I wanted to say that I love you When I can't disappear from your face
'Cause it's a sure shy, ooh
I'm a man who admits that it's hard to be alone
And missin' you, missin' you I wanted to say that I love you
I wanted to say that I do, yeah
I wanted to say that I love you Go bet on my cry, oh, and lie
Go, go and cry, oh, and lie I wanted to say that I love you
I wanted to say that I do, yeah
I wanted to say that I love you I wanted to say that I do, yeah
I wanted to say that I love you
