We Belong In This World Together

Stereo MC's

Inside you are hollow,
Inside you are hollow
InsideWe belong in this world together
What's going on?
We belong in this world together
What's going on? What's going on?Gotta check myself, my own backyard, my calling card
Don't take it hard, if you fall, you'll be wiser
After all, what's the use without invention in your mind
Come on down, treat me as your kind
I'm a face in the human race
Good for nothing, a hopeless case
There ain't no time, there ain't no space
Ain't no place for us to go
Face to face, we'll trace our step
Side to side, from east to west
The feeling strong, I'm feeling strongWhat's going on? What's going on?
What's going on?
We belong in this world togetherStaple make the diet
Mental attitude
Staple make the diet
And my mental attitude
Staple make my diet
And my mental attitude
Don't we belong?We belong in this world together
We belong in this world together
We belong in this world together
We belong in this world togetherWe belong in this world togetherSo what's going on?
